Reviews

This publication might be well worth a read, and much better than other. It really is simplified but excitement inside the 50 % of the book. You will not feel monotony at whenever you want of the time (that's what catalogues are for concerning when you check with me).

Austin Macauley Publishers. Paperback. Book Condition: new. BRAND NEW, Me290 (2nd), Simon Deeming, Me 290 immerses the reader into the realm of 'The Programme'; a clandestine experiment originally devised by Nazi engineers towards the end of World War Two after a chance happening that could've altered the course of history. Under the guise of the Space Race and the Cold War, two opposing Super Powers worked in unison, secretly continuing the work of a handful of brilliant German engineers, surpassing even the development of the rockets taken from Peenemunde - a technology with such implication that no nation on Earth is capable of taking the experiment to its conclusion! The novel explores the possibility that a chance happening nearly handed Hitler the hardware to deliver the victory he craved - an event that resonates to this day and may hold the future of humanity in the balance. Me 290 is the first installment in a series of stories centred around 'The Programme', its mandate and the people involved.
