Brand New Book ***** Print on Demand *****.Dance is not only body movement; Dance is the motion of life. It connects to body motion, heart emotion, mind expression, and soul reflection through a sequence of mathematical forms and shapes. Over the years our society has considered dance and mathematics to be near polar opposites. The two seem to have nothing in common. And yet upon close investigation and exploration the many connections and similarities reveal themselves. This unique collection of dance poems provides an entry to our understanding of the interplays among math, music, motion, and mind. It contains 55 original dance poems/verses on the motions of life, language of body and culture identity, artistry in motion, science of movement, and variations of dances.
